## Victor Carver Wins Legion Flounder Round-Up

Victor Carver, took first place prize with his flounder that measured 19 and three quarter inches, in the Legion's Flounder Round-Up. He was followed by Bert Esptapa, John Damborino, Clois Dedeaux, Raymond Bienvenu, Warren Tomasich and Henry Thornton. Both Dedeaux and Bienvenu won two awards.

The couples' contest was won by Bert and Louise Estapa. Second prize went to Warren Tomasich and Rita Tillman.

The judges for this contest were Val Flanagan, Nellus Rhodes, P. Rutherford and L. S. Elliott. They were faced with a problem when Mrs. Charles Byrd arrived one minute late with the largest flounder caught during the night. She had the flounder in her car before the deadline, but did not place it on the table until one minute past eleven.

The judges decided that her fish could not be allowed. A few others arrived with their catches after eleven and they were also refused.

All of the flounders which were caught by the prize winners were cleaned at Ladner's Seafood Market and presented to the King's Daughters hospital.

## Pearlington Oil Well Shut Down, But New Drilling Planned Because Of Favorable Sand Traces

RECEIVES FLOUNDER PRIZE—Victor Carver receives the first prize of \$10.00 from Mayor Scafile at the American Legion Flounder Round-Up held last week.

Sun Oil Company has closed its well in Pearlinton. Reports are that it is the closest it has ever come to striking the black gold in its five attempts here in Hancock County.

Last week this company hit salt water at about 10,000 feet, so they set a bridge play and rose to 4,800 feet and went off on an angle there.

It was learned in Jackson that the first set of perforations made at the well in Pearlinton did not show to be favorable. The results of the second set have not been reported up until this time.

Sources also revealed that Sun Oil was not too optimistic about the location where it was drilling. The traces of oil found this time were almost the same as found before, but nothing definite.

Before the well was closed the drillers discovered that enough gas came out of the well to light a torch, but again it was not enough. This well was the deepest ever attempted in Hancock County and the largest ever constructed here.

The land on which it was built is owned by Lester Alexander and the International Paper Company. Sun Oil Company has leased the greater portion of the Western half of the county and it was reported that they will try a new location to drill another well in the near future.

## L&N OFFERS TO STOP HUMMINGBIRD AND NUMBER 37, SCAFIDE SAYS

On the eve of the showdown meeting of citizens here with the L. & N. railroad officials in an effort to improve commuter service, the railroad has made a compromise offer to stop two more trains for a trial period.

Mayor John Scafile announced this week at a meeting will be held Monday, May 24th at 8 p. m., at the City Hall of all interested persons to consider the proposal made this week by L. & N. officials.

The railroad has agreed to stop numbers five and 37 trains for a period of six months. This schedule will continue if the amount of passenger traffic and revenue so warrants, the mayor said.

## League Board Starts Work

## Pass Christian Wins Monk Smith Sailing Trophy

The Monk Smith Memorial Trophy was awarded to Pass Christian Sunday at the Bay-Waveland Yacht Club regatta.

The Pass skippers merited this trophy by virtue of a first-place victory and two fourth places.

Gene Walet, North American representing the Southern Yacht Club won the regatta class. He finished first in all three races in this division.

Bobby Taylor took the star player series over three other entries. Cal Hadden, who finished third in the International Star series in New Orleans was runner-up.

Going into the last race of the day, Gulfport and Pass Christian were tied in points. Jack Lang, who sailed for the Pass club, won this race by a mere four yards to capture the regatta for the Pass.

Commodore Norman Renshaw, of the Bay-Waveland Yacht Club, presented the trophies to the individual winners and the winning clubs.

The results of all the races are: Fish Class—Pass Christian Yacht Club, 21 1/2 points; Gulfport Yacht Club, 19 1/2; Biloxi Yacht Club, 19; Mobile Yacht Club, 17 1/2; Buccanier Yacht Club, 17; Bay-Waveland Club, 10; Fair Hope, 8; New Orleans, 6.

## May Crowning Held Sunday At SSC Stadium

In the Pope's encyclical "Fulgens Corona" (the Radiant Crown) he calls for prayers, sermons and pilgrimages in honor of the Blessed Mother under the title of the Immaculate Conception. In accordance with his wish St. Stanislaus College and St. Joseph's Academy conducted the crowning of the Blessed Mother as Queen of May, Sunday night at the Stanislaus stadium.

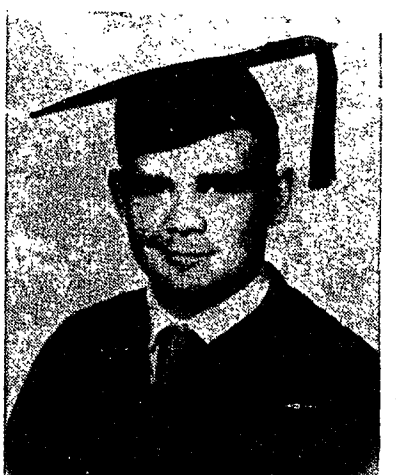

A life-sized statue of the Blessed Mother overlooking the beautifully decorated altar in the center of the football field.

The procession to the altar began at the gate on Necaise Avenue and proceeded directly across the field to the altar. The choir, which included the 80 students and 20 seminarians of the St. Augustine's Seminary, led the procession and were followed by the maids of honor and their escorts, the acolytes and the members of the clergy.

Immediately following the talk, Mary Rose LaBruzzo escorted by Alton Perelli and accompanied by Mary Jo Artigues and Ray Chiniche, the crown bearer, placed the crown on the statue.

## Sportsweek

By GREGORY FAVRE

This week we would like to visit with a boy who has compiled an outstanding high school athletic record at St. Stanislaus. He was christened A. J. Burke, 18 years ago in the city of New Orleans.

At the present time sports are secondary in his mind as he buckles down for those last high school exams. He will graduate with the class of 1954 Sunday a week.

After he receives his diploma he will put some serious thinking toward the two scholarships he has been offered to play football in college. Both Mississippi State and Alabama have made offers.

A. J. said, "I want to go to college and major in chemistry, and I want to play football. All I hope is that I can keep up my grades."

He lettered one year in football at the local school and three years on the track team. This year he distinguished himself as the outstanding trackman at St. Stanislaus in his past five years. He finished third in the State tournament in the broad jump, with an effort of 20 feet, 5 inches.

He scored all of the Rockchaw's points in the regional meet, finishing second in the broad jump and fourth in both the discus throw and the high hurdles.

In the district meet he was high point over all the contestants, scoring thirteen points and qualifying in all three events he participated in.

Mississippi hand grabblers will have a fishing season of May 15 to July 15, 1954, in most counties of the State, Mr. Wade Creekmore, Director of Game and Fish Commission, announced today.

The commission, in its last regular session, opened the season in all counties except Simpson, Jefferson Davis, Jones, Marion, Forrest, Greene, Stone, Hancock, Wayne, Perry, Lamar, Pearl River, George, Harrison and Jackson.

Mr. Creekmore stated that the dates and the fifteen counties having a closed season are the same as those in the 1953 season.

Fish have been biting at their best hereabouts lately - fishermen have been slaughtering them at the Keys all week - bagging as many as 200 in a day's catch.

Those fishing from the Railroad bridge and the auto bridge have been catching real big speckles some weighing as much as 4 pounds.

Horace Farr and Al Vetter caught over 30 Sunday morning which filled a hamper. They were using live bait, however, the past couple of days they have been hitting dead shrimp.

Green trout have also been

remarked about the great competitive spirit he showed. He put everything he had into that jump and for reasons like that this trophy is awarded to him tonight.

Brother Roland, president of St. Stanislaus, added to this statement by saying, "Though we had a losing season the thing that counts is that you are being trained to be men. A. J. Burke is an outstanding example of this. Surely he proved himself a man with the spirit and winning attitude he showed he possesses."

Other tributes were made to the red headed boy with the fighting heart and all he could answer in his own modest way was "Thank you very much."

## SCENES FROM THE MONK SMITH REGATTA HELD AT THE BAY-WAVELAND YACHT CLUB SATURDAY AND SUNDAY

Top Left—Gene Wallet, North American champion is shown as he sails out of the harbor for the start of one of the lightning races. Wallet won all three races he participated in for the Southern Yacht Club.

Bottom Left—Commodore Norman Renshaw is conducting the drawing and briefing exercises before the Sunday afternoon races. All the skippers were present from the different G. Y. A. clubs entered in the regatta.

Center—After the briefing and drawing the skippers began to get the boats ready to sail in the next race. All the boats had a number on them and the skippers must find the right boat by number.

Top Right—Norman Renshaw, Commodore of the Bay-Waveland Yacht Club presents the Monk Smith memorial trophy to Rip Terrell skipper for the Pass Christian Yacht Club in the fish class series. A. B. Tipping, president of the G. Y. A. looks on in the center.

Bottom Right—The members of the various committees prepare their boat to get ready for the races Sunday. From this boat they give the warning shots and the start of the race.

### Robert Boudreaux Receives Expert Rifleman Award

Private Robert A. Boudreaux, son of Mrs. R. Boudreaux, 205 St. George Street, has qualified as an expert rifleman with the M-1 rifle during his training at Fort Jackson.

He will be awarded the Expert Qualification Badge for rifle which he will wear throughout his army career.

In order to qualify, basic trainees at Ft. Jackson must spend many hours in instruction in the use of the rifle. They learn to dismantle the weapon, the safety rules of its operations, and how to fire it.

Then they are ready to fire on the range. Each trainee spends about three days on the "Known Distance" range and the score training is his qualification.

Expert is the highest qualification for weapon firing. Sharpshooter and Marksman are the other qualification designations.

## A Splendid Plan

The proposal for a new Bay St. Louis beachfront, revealed in last week's Sea Coast Echo, is an excellent one. In the so-called "causeway bill," Rep. Walter James Phillips appears to have discovered a perfect solution to the problem of the Bay St. Louis beach.

It is a problem, you know. We refer to "the beach" often around here. But actually there is no beach, except for the city strip at the old bridge and the American Legion Pier.

The Phillips proposal presents Bay St. Louis with a real beach - from Clermont Harbor to Cedar Point. This is at the same time a splendid facility for local citizens, and a great tourist draw.

Oddly, this won't cost the county a nickel. The money comes from state funds - funds which the state will retain if we don't use them for such a project within eight years.

We think the proposed causeway to Ship Island is a joke. It supposedly would give the Mississippi coast surf bathing to compete with Miami. But the bill doesn't change the seasonal temperatures. You swim in Miami in February. You don't swim here in February.

That, however, is a problem for Harrison County. Hancock County will not pay a red cent for the causeway, whether or not it's built.

Hancock County will pay only for its own improvement - and this, Phillips' proposal, is the kind of improvement greatly needed. It actually could save the county money. For if the existing beach road is brought up to specifications, the state highway department will take over maintenance.

The time for action is NOW. There is only one consideration, and that is the property rights of beachfront property owners. This is not a matter not to be taken lightly.

But they should bear in mind that the folks in Pass Christian went through the worrying about "cluttered beaches." Take a look at those Pass Beaches, even on Sunday.

They're not cluttered at all.

## Train Dispute

The hearing set with the L&N railroad by the Public Service Commission should be a climax to the commuter train dispute.

This meeting is a great importance to the people of the Gulf Coast, who depend on the trains as a means to go to and from their occupation and to the businessmen of this area. They should take advantage of this opportunity and attend this hearing. They should be prepared to present any information which may be used to clear this controversy.

If enough evidence is brought forth so that the Public Service Commission can make a decision either way, it will do so. Since this could very well be the finishing touches to the commuter service dispute. It would benefit all interested parties to be at the Court-house on next Thursday to support their individual points of view.

## County Agent Notes

### WORMS IN SMALL GRAINS

Worms are causing a considerable amount of damage in oats, wheat and other small grains as well as in pastures. Check your fields. If you find five or more small worms per square foot, it is time to poison.

Look at the base of plants for the small worms. They feed on leaves and then begin cutting green kernels from the heads.

Poisons to use include toxaphene, chlordane or dieldrin. Check with your county agent for details on how much material to apply and how to apply it.

Caution: Wait at least two weeks after use of toxaphene or chlordane materials before allowing livestock to graze the fields, or before cutting the grain for silage or hay. If dieldrin is used, wait three weeks.

**WEATHER TERMS**  
Farmers concerned with poisoning for control of insects, putting up hay and many other farming activities need to know more about terms used in weather forecasts. These terms are standard. If the forecast is for "fair with risk of showers, or risk of thundershowers," rain can be expected on from one to 15 percent of the area.

"Widely scattered showers, or widely scattered thundershowers," means 15 to 30 percent of the area will likely receive them. If "scattered showers, or scattered thundershowers," are predicted, then you can expect some moisture to fall on 30 to 45 percent of the area.

A forecast of "showers or thundershowers," means that rain is expected on 45 to 75 percent of the area.

Terms like "general showers, general thundershowers, general rain," indicate that precipitation is expected from 75 to 100 percent of the area.

Terms used in regard to winds, needed by farmers in crops dusting for insects control are: light winds, one to seven miles per hour; gentle winds, eight to 12 miles an hour; moderate winds, 13-19 miles an hour; fresh winds, 20 to 24 miles an hour; and strong winds, 25 to 38 miles an hour.

**SILOS**  
Where soil and topography are suited to the use of trench silos, this type has some decided advantages over other types. They are cheaper to build, even when concreted throughout and roofed, than it is an upright, permanent type silo.

The filling is less expensive. A stationary biker at silo is not needed. Silage can be dumped directly into the trench from the hauling truck. Packing can be done by tractor rather than by man power as in an upright silo. The self feeder system may be worked out at far less than other types.

## Modern Etiquette

By ROBERTA LEE

Q. How are the invitations to the second marriage of a young widow worded?

A. In the same way as the usual invitation, in the name of her parents or nearest relatives, as "Mr. and Mrs. William Johnson request the honor of your presence at the marriage of their daughter, Mary Johnson Carter, etc." You will note, of course, that the full name of the bride is used.

Q. How is the suffice "third" correctly written after a name—as "3rd," "third," or "III."?

A. Either "3rd" or "third" is the popular way. While the Roman numerals are not incorrect, they are considered suggestive of a dynasty.

Q. Is it proper to take more than one kind of food on the fork at a time?

A. Never; take only one piece of meat or one forkful of potatoes at a time.

Q. Is it proper for a man dining in a restaurant with his wife to rise when another couple stops at their table for a few words?

A. The man must always rise when a woman stops at the table. And thoughtful women do not stop at restaurant tables, if they can help it.

Q. Should gifts that are brought to a birthday party be opened by the recipient immediately, or left until after the party?

A. It shows more appreciation to open the gifts immediately.

Q. When serving a fruit juice as a first course at the dinner table, where is this glass placed?

A. On the place plate—not with the waterglass.

Q. May a girl ask a service man, who is a stranger in her city and who is coming to visit her, to stay for a few days in her home, or should she arrange hotel accommodations for him?

A. If she is living with her parents, this is perfectly proper. In fact, it would be inhospitable to send him to a hotel if you have a spare room available.

Q. When drinking a cocktail that has a piece of fruit in it, such as orange, lemon or pineapple, is it proper to eat the fruit?

A. Although it is not usually done, it is quite all right to eat it, if you wish. Put the rind back into the emptied glass.

Q. Should a woman thank a waiter in a public restaurant when he holds her chair for her?

A. This is not necessary.

Q. How does one introduce one's stepfather?

A. Introduce him as "my stepfather," and if necessary add his name, "Mr. Carter."

## How Can I !!

By ANNE ASHLEY

Q. How can I preserve a thermos bottle when storing?

A. Do not put the thermos bottle away with the cork inserted, as the bottle will become musty. Keep the cork elsewhere but do not forget the location when the bottle is again required.

Q. How can I remove odors from the fingers and from the breath?

A. Rub the fingers well with crushed parsley. Chewing a sprig of parsley after eating onions will clear the breath.

Q. How can I sharpen scissors?

A. One of the quickest methods is to cut sandpaper with them until a sharp edge is secured.

Q. How can I keep the bathroom disinfected?

A. When cleaning the bathroom add a few drops of disinfectant to the water. It will give the room a clean smell and will kill any germs that may be in the bowls.

Q. How can I facilitate the pressing of a pleated skirt?

A. Pressing a pleated skirt use needles to pin down the pleats. They will leave no marks when they are removed.

Q. How can I soften brown sugar that has become lumpy?

A. Keep the brown sugar in an open jar in the refrigerator and it will become and remain soft and free from caking.

Q. How can I soften and remove old varnish and paint?

A. Try using two parts of spirits of ammonia to one of turpentine; apply with a rag. For difficult corners or carved places, use a stiff brush.

Q. How can I clean a ring that has a set?

A. Pull a tiny feather back and forth between the prongs of a set ring and the back of the stone will be cleaned nicely. The stone will also shine more clearly.

Q. How can I make food digestible?

A. To render any food more digestible try using gelatine in the food mixture.

Q. How should blankets be

### YOU ARE THE DETECTIVE

You are admitted to the hotel room by Sidney Harmon, and immediately your eyes fall on the body of the dead man, lying on the floor under the window. Bending over the body, you see the scorched hair around the bullet hole in the right temple, attesting to the close range from which the shot had been fired. Then, stepping over the body, you pick up the gun in your handkerchief, give it to the fingerprint test and finding nothing of interest, you turn to Harmon.

"George Mercer was one of my best friends," he exclaims. "I knew he had been suffering from some illness, but he was always one of the most cheerful of men. Certainly I didn't dream he would ever commit suicide!"

"You saw the whole thing?" you prompt him.

"Yes. I was visiting him here in his room. We were chatting about inconsequential things, when suddenly he got up, walked over to that dresser, pulled a gun from the drawer and shot himself. I was thunderstruck, unable to move for a few minutes—then I phoned you."

You gaze over at the still-open drawer of the dresser, then turning around, you gaze at the dead man again. Finally, you wheel around to Sidney Harmon: "Wasn't he worried about his finances? His medical expenses must have been

laundered?"

A. Do not handle blankets when washing them. Allow the water to soak through them, then pat or squeeze until saturated with water, and use the same method for drying. This will keep the fibers soft.

Q. How can I clean leather furniture that is soiled?

A. By applying warm milk with a soft cloth and then rubbing thoroughly until dry.

Even the small fry get grown-up results with a modern, automatic gas range. This summer, treat yourself to cool, pleasant cooking with dependable natural gas. Gas never lets you down.

There are enormous reserves of gas in the earth here in the Gulf South. But more than that... the gas industry's continuing program of exploring for new reserves assures us plenty of gas for the future.

Exploration costs big money, and involves financial risks. But the natural gas industry takes the risks - and will discover more and more gas for you - so long as it is permitted to make a fair profit on the gas it finds.

Budget-wise families agree that natural gas service is the biggest bargain in the world today - worth every cent they pay... and then some!

## COASTING

By ANNE ORLEANS

Letters have been going between Bay St. Louis and Japan for two years so it was a wonderful renewal of friendship when Adelaide Williamson and her husband, Major Stephen A. Williamson, U. S. Army, came over from New Orleans to attend the wedding of Adelaide's daughter, Beatrice Parker, with Evelyn and Lloyd Griffith, now living on North Beach. The Williamsons had so many interesting things to tell of all that they had seen and done in Japan. The day went by too quickly.

The Williamsons are in New Orleans to attend the wedding of Adelaide's daughter, Beatrice Parker, to Lt. Cecil Lee Brant, US... on May 22. They plan another visit with the Griffiths before they leave for their new post in Fort Eustis, Va.

The John Herbers whose attractive home on Aiken Road and Beach is noted for its nice lawn and trees, have moved into their new home on Oak Street in New Orleans. They will continue to spend the summer months and many weekends at their Coast home.

Aetna erupted last Saturday. Not the volcano but the Life Insurance Company. Killian and Miriam Huger had an all-day picnic for company representatives. They came from New Orleans, Laurel, Miss., and Mobile, Ala., and all points in between. How many? Somewhere between forty and sixty guests. They sunbathed, fished, crabbed, played horseshoes, swam on the Halsey pool and just plain sat around and played cards or went to sleep. A big buffet luncheon with everything from baked ham to shrimp and potato salad took care of those outdoor appetites.

Elizabeth and Ernest Robin having lunch with Prieur Leary at Gulf Palms Restaurant, in Pass Christian. We are all so proud of the wonderful work that Elizabeth has done and is doing for the new Crippled Children's Hospital in New Orleans. She is so busy with this vitally important work that she and Ernest do not get over to their cottage at the Pass as often as they would like.

The George Lehlleitners just back from a marvelous trip to Washington, D. C., and New York. George is tremendously interested in the Alaskan and Hawaiian statehood struggles. He attended the meetings and they both went to a big cocktail party at the Shoreham Hotel given for the delegates.

They had two crowded days in New York. Theatre, of course, was a must and they attended a

performance of "The Solid Gold Cadillac" and also a revival of Gilbert and Sullivan plays by Dorothy Redlock. "Yeomen of the Guard" was the one they heard and enjoyed so much. Took time out to have a super steak at the Black Angus Restaurant.

Instead of resting when they got home they had to make right into the details of a Lehlleitner company picnic given at Kittiwake, down on the east end of Pass Christian, last Saturday. About two hundred guests were expected. Almost three hundred came.

Visiting Mr. and Mrs. Ben Moise this past weekend, were their daughter, Mrs. Frank Albright, Jr., and her two little children, Connie and Glenn Allen. The Moises have just completed a barbecue grill in their patio and the children's choice was weiners, or course.

The Linnfield home on the beach open again. Mrs. Linnfield will be here for two weeks. Her guest will be her mother, Mrs. A. F. Fournier, who used to live here and always enjoys coming back to the Coast.

Marjorie Linfield gets back from Vanderbilt University on June 4. This was Marjorie's freshman year but she made excellent marks in the scientific course that she is taking. She was highly honored when she received a letter from the Dean complimenting her on her fine work and thanking her for her co-operation in maintaining the scholastic standards of the University.

Marjorie expects to major in science or chemistry and is going to summer school at Tulane University to build up her credits.

Peter, Jr., and Mary Margaret Monroe and their two little daughters, Peggy and Renee came over from New Orleans to spend the weekend with Gladys and

Peter Monroe:

The Monroes have one of the loveliest gardens in this section and at this time their cape jasmine bushes are particularly lovely.

Their little granddaughter, Susan Lacouture, celebrated her fourth birthday last week and no one enjoyed the ice cream and birthday cake more than Susan.

One of the longest piers on the Bay-Waveland coast was put to the best possible use last week end. The Monroe pier was taken over by fourteen little girls, chaperoned by Mrs. Raeburn Monroe and Mrs. Wayne Borah. Racing up and down the pier, swimming, crabbing, and sun bathing, of course. Think of having to plan three meals a day for fourteen hungry little girls.

Mrs. Louis Eaves, Jr., and her sons, Louis and Peter weekending with the Hegers and spending most of the week end on the Stahl's pier.

Mr. and Mrs. Ed Carrere playing their golf on the Ed Carreres, junior, Ed III, Billy and Charlotte. They enjoyed the crawfish dinner given by the Dick Carreres and saw the Bay-Waveland regatta from John Perez's boat. John Perez has bought the Lafayette Sheen home near DeLisle on Wolf River.

Mrs. Loring Ferguson, of New Orleans, visited Bessie and Charles Gremillion recently. Mrs. Ferguson is Bessie's aunt and did they have a lot to talk about. Last year Mrs. Ferguson had a wonderful trip around the world and this year she decided to go back to the Hawaiian Islands for about six weeks. She also visited in San Francisco. In Los Vegas she visited Bessie's sister and her husband, Lt. Harmon Agnew, USN, and their brand new little daughter, Jeanne Freret Agnew.

Takes Part In

Landing Exercises

Taking part in Lantalex 54, the large scale Amphibious task force landing exercise near Camp Lejeune, N. C., last month was John H. Ginn, radarman, seaman, USN son of Leon Ginn of 200 St. George St., aboard the amphibious force flagship USS Mt. Olympus.

The training exercise, involving more than 80 ships and some 60,000 Naval and Marine personnel, was climaxed by an assault landing on "aggressor-held" Onslow Beach.

The maneuvers were aimed to maintain the combat readiness and increase the battle efficiency of the participating naval elements and troops taking part.

When the Dan Russells move out of their home, the Curtis Stubbs who now live on Beach Boulevard in Waveland, will move into the old Russell home on No. Beach.

Farewell Party

For Navy Man

Commander and Mrs. William Bearden and Captain and Mrs. Charles S. Daly of the Chesapeake Naval Station were guests of Mr. and Mrs. George Seuzeneau today at a farewell dinner for Commander Bearden.

In the afternoon several additional guests dropped in at the Seuzeneau home to bid goodbye to the Beardens, who left last week for Japan.

It's true

The Continental Congress included beer in the army's daily ration during the Revolution. As in most wars, supplies sometimes ran low and so General Washington wrote in 1777, that his troops sadly missed their favorite beverage. "If only beer or older and vinegar was procured..." he begged the Board of War.

Beer industry employs 18,571. This many Mississippians are carried on pay-rolls of the State's 61 wholesalers and nearly 6,000 beer retailers.

More than 69% of U. S. families, in all income groups, drink beer, and "at home" consumption accounts for the greatest use of beer.

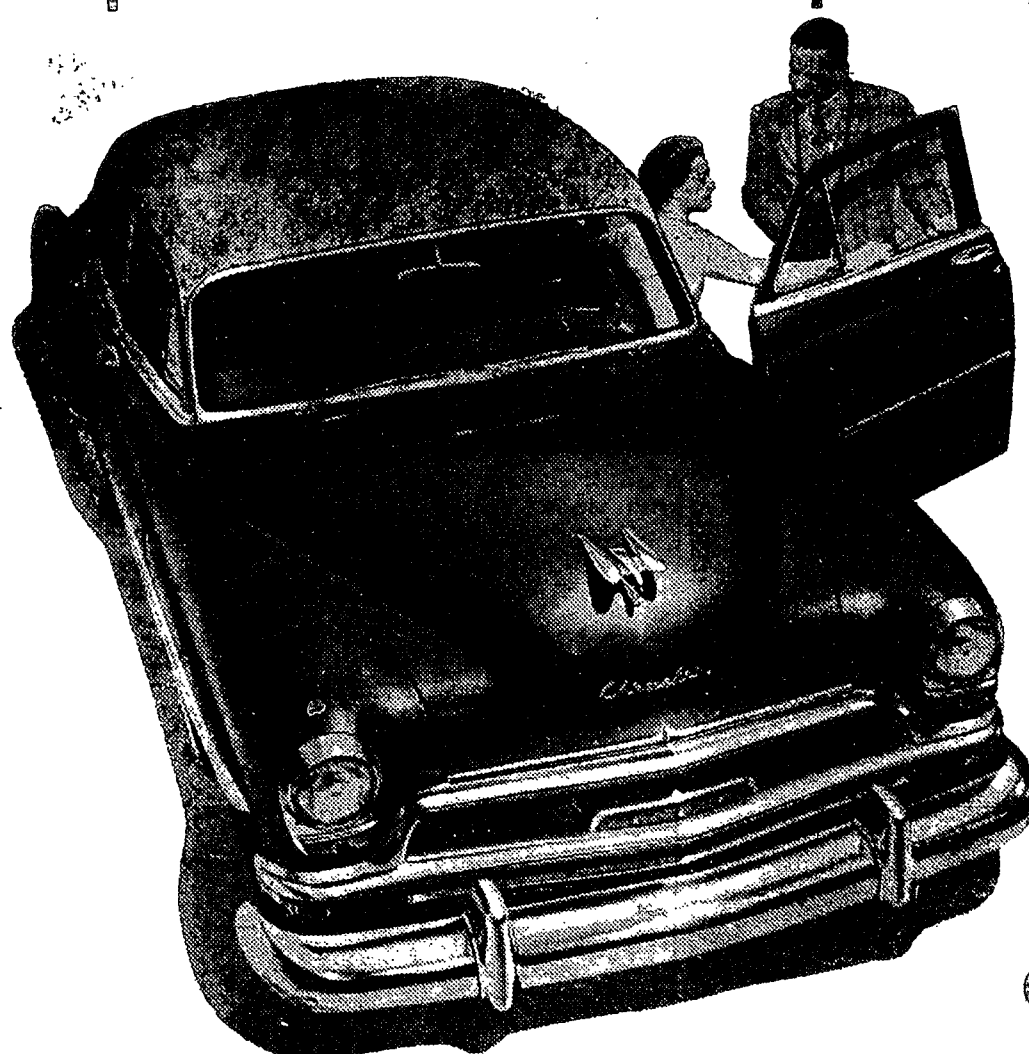

It's true... that beer carries a higher tax load in Mississippi than it does in any other state in the nation. Largely through growing public acceptance of legally regulated beer as the beverage of moderation beer is still the fifth largest taxpayer in the Magnolia State.

announced that the second sign-up period for filing requests for cost-sharing under the 1954 Agricultural Conservation Program is from May 21 to June 15.

The Agricultural Conservation Program is a voluntary program. Any farmer who feels that he can do his farm better with the aid of the program is urged to sign up.

The basic purpose of the Agricultural Conservation Program is to aid in achieving the necessary conservation of our soil and water resources. The future prosperity of this Nation necessitates the protection and maintenance of our land and water resources.

Farmers are given an opportunity to request the Federal Government to share the costs, if needed, in carrying out eligible practices on the farm during the fall of 1954.

The Chairman urges farmers to study carefully the conservation practices for which ACP cost-sharing is available in relation to the conservation needs of their farm, and to try to fully decide in advance of the visit to the county office on which one or two practices, ACP cost-sharing is most needed. In doing so, please make use of any conservation plan that may be developed for the farm.

According to Mr. Lee, the form on which the request for cost-sharing must be made, if cost-sharing is needed, may be obtained at the County ASC office located in the Agricultural Center in Bay St. Louis.
